EDUCATION

MGMCOET

B.Tech – CGPA: 7.4 / 10

Noida, India

Aug 2023 – July 2027

TECHNICAL SKILLS

Programming Languages: Java, JavaScript

Frontend: React, HTML, CSS

Backend: Java, Spring Boot

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Postman, Spring Tool Suite 4

Concepts: DSA, OOPs, OS, DBMS, CN, SE

Learning: DevOps, System Design, AI & ML

EXPERIENCE

REDX Technologies

Web Development Intern

Remote

Oct 2025 – Jan 2026

- Completed internship focused on web development.
- Worked with HTML, CSS, Bootstrap, JavaScript, PHP and MySQL.
- Built responsive interfaces and backend integrations.

PROJECTS

Student Management System

Spring Boot

- Designed and developed a Student Management System using Spring Boot and MySQL for efficient student record handling.
- Implemented complete CRUD functionality with RESTful APIs for seamless data operations.
- Applied layered architecture using Controller, Service, Repository, and Entity modules.
- Integrated validation and exception handling to improve application reliability.
- Added live search functionality for faster student retrieval and improved user experience.
- Tested APIs using Postman and optimized backend performance.

Library Management System

Spring Boot

- Built a Library Management System to manage books, users, and book-return workflows.
- Developed REST APIs using Spring Boot with database integration using MySQL.
- Implemented CRUD operations for book and student management.
- Designed modular backend architecture for maintainability and scalability.
- Optimized database queries to improve response time and application performance.
- Applied exception handling and clean API response structure.

Blogging Application

Full Stack

- Developed a full-stack blogging application supporting content creation and management.
- Integrated frontend and backend through REST APIs for smooth communication.
- Implemented authentication and structured content management workflows.
- Designed responsive UI for better accessibility across devices.
- Managed database interactions for storing and retrieving blog content efficiently.
- Focused on reusable components and scalable application structure.

HACKATHONS & ACHIEVEMENTS

- Participated in Hyperspace Innovation Hackathon
- Completed Internship at REDX Technologies
